Please note All MLS Subscriptions/Licenses must be paid upfront through the company. I will set up a profile under the client's email, but will need to schedule a time where I can reach out to client to send verification codes/correspondence.

Also note their support did come back to me recommending a \$550 integration that would improve the built in search feature, you can view the information here: [Advanced Portal Search \(APS\) \(realtyna.com\)](#)

Basically adds saved search functionality based on the user's web browser cookies. This can be added later; just wanted to make sure this was added for reference
